

**WITHOUT LONG CHOICE OF MOTIVES**

## simple & fast PRESCRIBED IN NO TIME

Prescribe quickly and easily using our PZN list:

1. Select the PZN list for the right or left eye
2. Choose the theme world according to the child's interests
3. Select the appropriate PZN - depending on the size (mini, midi, maxi) and PU (50 or 100) - from the list and prescribe it

If both eyes are to be occluded alternately, 2 PZNs (from the "right" and "left" lists) can also be prescribed - even from different worlds.
