

This is how OKKLUEASY is attached to the glasses.

Velcro upwards and then insert the temple into the large opening on the side and push it through.

Pull OKKLUEASY over the lens with gentle pressure, pass the Velcro strip under the nosepiece and fasten it and attach to the top of the glasses. Done! Further tips are provided by therapists – in addition, each package comes with detailed instructions for use.

- ⊕ fits left
- ⊕ fits right
- ⊕ always fits
- ⊕ on any glasses
- ⊕ guaranteed

Crying children, sad parents?
Never again!
